

Technical Bulletin

Product Information: *EndoTherm*

EndoTherm Compatibility

Worcester, Bosch can confirm that we have tested for any detrimental effects that the *EndoTherm* energy saving additive may have on the internal water-facing components and seals on the primary heating circuit side of Worcester boilers.

As a result of this we can confirm that *EndoTherm* will not adversely affect any components of a Worcester boiler, or affect the associated warranties.

Worcester, Bosch is not able to confirm the energy saving performance claims of *EndoTherm*, but allow the use of this product in terms of compatibility, when used with a Worcester boiler in a sealed wet heating system.

Further information on the *EndoTherm* product can be found on the Energy Savings Trust website:

Whilst it is always our intention to fully assist, it is essential to recognise that all information given by the company in response to an enquiry of any nature is provided in good faith and based upon the information provided with the enquiry. We recommend that advice should always be checked with your installer or contract partner. Consequently, the company cannot be held responsible for any liability relating to the use or repetition of such information or part thereof. In addition, whilst making every reasonable effort to monitor the performance and quality of our supply, installation and service network, we do not accept responsibility for the workmanship or operation of any third party company that the company may have promoted either in conversation, e-mail, or other communication. Similarly, the views and opinions expressed in communication with individuals within the company may not reflect that of the business as a whole.
