## Ideal Boilers / EndoTherm – Compatibility Statement Oct 2017

To whom it may concern:

Endo Enterprises can confirm that Ideal Boilers have conducted a review of the EndoTherm energy saving additive for the purposes of compatibility. As a result, we can confirm that as long as the heating system is treated in accordance with best practice, ie. Including the use of a Build Cert approved inhibitor, EndoTherm will not adversely affect any components of an Ideal Boiler or affect the associated warranties.

Ideal Boilers is not in a position to endorse the Energy Saving performance of EndoTherm.
